Handbook of Statistics_29A, Volume 29: Sample Surveys: Design, Methods and Applications

Handbook of Statistics_29A, Volume 29: Sample Surveys: Design, Methods and Applications

This new handbook contains the most comprehensive account of sample surveys theory and practice to date. It is a second volume on sample surveys, with the goal of updating and extending the sampling volume published as volume 6 of the Handbook of Statistics in 1988. The present handbook is divided into two volumes (29A and 29B), with a total of 41 chapters, covering current developments in almost every aspect of sample surveys, with references to important contributions and available software. It can serve as a self contained guide to researchers and practitioners, with appropriate balance between theory and real life applications.

Each of the two volumes is divided into three parts, with each part preceded by an introduction, summarizing the main developments in the areas covered in that part. Volume 29A deals with methods of sample selection and data processing, with the later including editing and imputation, handling of outliers and measurement errors, and methods of disclosure control. The volume contains also a large variety of applications in specialized areas such as household and business surveys, marketing research, opinion polls and censuses. Volume 29B is concerned with inference, distinguishing between design-based and model-based methods and focusing on specific problems such as small area estimation, analysis of longitudinal data, categorical data analysis and inference on distribution functions. The volume contains also chapters dealing with case-control studies, asymptotic properties of estimators and decision theoretic aspects.

- Comprehensive account of recent developments in sample survey theory and practice
- Discusses a wide variety of diverse applications
- Comprehensive bibliography

From reader reviews:

Bert Gomes:

As people who live in the modest era should be update about what going on or details even knowledge to make these individuals keep up with the era that is always change and advance. Some of you maybe may update themselves by studying books. It is a good choice for you but the problems coming to anyone is you don't know which one you should start with. This Handbook of Statistics_29A, Volume 29: Sample Surveys: Design, Methods and Applications is our recommendation to help you keep up with the world. Why, because this book serves what you want and want in this era.

Milford Garrett:

The reason why? Because this Handbook of Statistics_29A, Volume 29: Sample Surveys: Design, Methods and Applications is an unordinary book that the inside of the e-book waiting for you to snap that but latter it will distress you with the secret this inside. Reading this book alongside it was fantastic author who have write the book in such incredible way makes the content within easier to understand, entertaining approach but still convey the meaning totally. So , it is good for you for not hesitating having this ever again or you going to regret it. This book will give you a lot of gains than the other book have such as help improving your ability and your critical thinking means. So , still want to hold up having that book? If I ended up you I will go to the guide store hurriedly.

Patrick Duenas:

Your reading 6th sense will not betray an individual, why because this Handbook of Statistics_29A, Volume 29: Sample Surveys: Design, Methods and Applications guide written by well-known writer whose to say well how to make book which might be understand by anyone who have read the book. Written throughout good manner for you, leaking every ideas and producing skill only for eliminate your personal hunger then you still skepticism Handbook of Statistics_29A, Volume 29: Sample Surveys: Design, Methods and Applications as good book not just by the cover but also by content. This is one book that can break don't assess book by its protect, so do you still needing an additional sixth sense to pick that!? Oh come on your reading sixth sense already said so why you have to listening to a different sixth sense.

Earnest Koontz:

A lot of reserve has printed but it is different. You can get it by world wide web on social media. You can choose the top book for you, science, amusing, novel, or whatever by means of searching from it. It is referred to as of book Handbook of Statistics_29A, Volume 29: Sample Surveys: Design, Methods and Applications. You'll be able to your knowledge by it. Without departing the printed book, it could possibly add your knowledge and make an individual happier to read. It is most significant that, you must aware about publication. It can bring you from one place to other place.
