Corrosion Science and Natural Products Chemistry: Natural Products as Green Corrosion Inhibitors for Metals in Corrosive Media Bothi Raja

Mild steel (MS) is the material of choice to fabricate various reaction vessels, pipes, tanks etc., in most of the chemical industries due to its easy availability and low cost. Hydrochloric acid and Sulphuric acid are generally used for the removal of undesirable scale and rust in several industrial processes. MS suffers severe corrosion in aggressive media. Many heterocyclic compounds have been proved to be effective inhibitors for the corrosion of metals and alloys in acid media. There has been a growing trend in the recent years to go in for eco-friendly, non-toxic green inhibitors in place of synthetic substances which suffer from many drawbacks. This book discusses the anticorrosion effect of the following alkaloidal plants viz., Datura metel, Datura stramonium, Solanum nigrum, Solanum tuberosum, Piper nigrum, Rauvolfia serpentina and Strychnos nux-vomica and their corresponding alkaloid constituents viz., Atropine, Solasodine, Piperine, Reserpine and Brucine against mild steel corrosion in acid media. Further, this study has unearthed another facet of the alkaloids viz., the corrosion inhibition potential as so far only their physiological effects are studied.

From reader reviews:

Eunice Bourque:

Why don't make it to be your habit? Right now, try to ready your time to do the important action, like looking for your favorite reserve and reading a publication. Beside you can solve your short lived problem; you can add your knowledge by the guide entitled Corrosion Science and Natural Products Chemistry: Natural Products as Green Corrosion Inhibitors for Metals in Corrosive Media. Try to face the book Corrosion Science and Natural Products Chemistry: Natural Products as Green Corrosion Inhibitors for Metals in Corrosive Media as your friend. It means that it can being your friend when you truly feel alone and beside that course make you smarter than previously. Yeah, it is very fortunated for you. The book makes you much more confidence because you can know everything by the book. So , let me make new experience as well as knowledge with this book.

Kim Gray:

The book Corrosion Science and Natural Products Chemistry: Natural Products as Green Corrosion Inhibitors for Metals in Corrosive Media make one feel enjoy for your spare time. You can use to make your capable far more increase. Book can for being your best friend when you getting tension or having big problem with your subject. If you can make studying a book Corrosion Science and Natural Products Chemistry: Natural Products as Green Corrosion Inhibitors for Metals in Corrosive Media to be your habit, you can get a lot more advantages, like add your current capable, increase your knowledge about many or all subjects. You may know everything if you like wide open and read a guide Corrosion Science and Natural Products Chemistry: Natural Products as Green Corrosion Inhibitors for Metals in Corrosive Media. Kinds of book are several. It means that, science reserve or encyclopedia or other people. So , how do you think about this publication?

Lupita Kirch:

Often the book Corrosion Science and Natural Products Chemistry: Natural Products as Green Corrosion Inhibitors for Metals in Corrosive Media has a lot associated with on it. So when you check out this book you can get a lot of advantage. The book was compiled by the very famous author. Mcdougal makes some research ahead of write this book. This particular book very easy to read you will get the point easily after looking over this book.

Stacy Abercrombie:

Corrosion Science and Natural Products Chemistry: Natural Products as Green Corrosion Inhibitors for Metals in Corrosive Media can be one of your starter books that are good idea. We recommend that straight away because this guide has good vocabulary which could increase your knowledge in vocabulary, easy to understand, bit entertaining but still delivering the information. The article author giving his/her effort to put every word into delight arrangement in writing Corrosion Science and Natural Products Chemistry: Natural

Products as Green Corrosion Inhibitors for Metals in Corrosive Media however doesn't forget the main position, giving the reader the hottest along with based confirm resource details that maybe you can be one among it. This great information could drawn you into fresh stage of crucial imagining.
