An explosive and unvarnished look at America's immigration problem. *Crime & Incompetence: Guide to America's Immigration Crisis* takes the reader into a world of crime, corruption, and incompetence that politicians and faceless bureaucrats do not want you to know exists.

Investigative journalist Marinka Peschmann's eye-opening book exposes the dark side of the broken immigration system. Bribery—cash, gifts, or sex—is but one criminal element at the United States Citizenship and Immigration Services (USCIS).

After reading *Crime & Incompetence*, Americans will learn how, under the watch of both Republican and Democratic administrations, the USCIS grew into a dysfunctional bureaucracy that substantially contributed to the current illegal alien/undocumented worker crisis; yet somehow, magically, is expected to process a "bi-partisan" path to citizenship (a.k.a. amnesty) for roughly 11+ million illegal immigrants.

How can a broken system process millions of illegal immigrants when it can't process legal immigrants properly? It cannot. As you will see, comprehensive immigration reform is not about compassion—it is a vote-grab at the expense of Americans and lawful immigrants.

Dare to see big government at its worst. See what legal immigrants have known all along—how devastating life can be at the mercy of unelected bureaucrats while stuck in a broken state-run agency. This could be your future in Obama's America. Heed Peschmann's documented warning: should any type of amnesty become law, America will be fundamentally transformed into a one-party nation. This is a must read for anyone who cares about America's future.

MARINKA PESCHMANN is the author of *The Whistleblower: How the Clinton White House Stayed in Power to Reemerge in the Obama White House and on the World Stage* and *Following Orders: The Death of Vince Foster, Clinton White House (One Rock Ink)*. She is a freelance journalist, a reformed legal immigrant, and whistleblower. For more information visit: [marinkapeschmann.com](http://marinkapeschmann.com).
