Help students understand how culture impacts development - and why it matters.

Through current research and examples from around the world, Arnett/Maynard's *Child Development* provides students with a more accurate and practical understanding of how development works in the real world. Whether they travel the globe or remain in their home towns, students will benefit from being able to think culturally about human development and our culturally diverse and globalized world. New U.S. and international videos, shot in several countries, allow students to observe similarities and differences in human development across cultures.

MyDevelopmentLab is an integral part of the Arnett/Maynard program. Key learning applications include a personalized study plan, MyDevelopmentLab Video Series, and MyVirtualChild.
