Atlas of Head & Neck Surgery

Atlas of Head & Neck Surgery

This book is a comprehensive guide to head and neck surgery, for students, residents and consultants in various disciplines including otolaryngology, head and neck surgery, general surgery, neurosurgery, plastic surgery, maxillofacial surgery, facial rehabilitation and oncology. The book presents 53 chapters providing step by step, up to date surgical techniques, featuring detailed images and illustrations of each step of the operation. Numerous intra-operative photographs enhance understanding of complex surgical procedures. Written by a highly experienced, international author and editor team, some of whom designed and established head and neck reconstruction and rehabilitation techniques, this manual includes major classical and contemporary references, as well as summary points, at the end of each chapter. Key points

- *Comprehensive guide to head and neck surgery for students, residents and consultants in many surgical disciplines
- *Emphasis on surgical techniques
- *Includes more than 1075 full colour images, illustrations and intra-operative photographs
- *Highly experienced, international author and editor team
