VOLUME ONE OF THE LONESOME GEORGE CHRONICLES

In August of 2008, a series of terrorist attacks on U.S. soil stagger the nation. In the shattered remains of our country, citizens find themselves tested in a crucible where freedom of religion, speech, and the Constitution no longer exist. The Big Bang weaves together stories of the people of a new America, from the last elected President of the United States on the run in a country no longer his own, to a movie star hunting desperately for his lost daughter. Ordinary people like Eric Whistler and a woman called Lightning rise up to become leaders in the fight against the invaders known as the Caliban. The Big Bang is a chilling, provocative novel - a compelling history of events that have not yet taken place.
