GENERAL ELECTRIC REFRIGERATORS PARTS MANUAL 1927-50 (Vintage General Electric refrigerator parts manual) General Electric Technical Services

GENERAL ELECTRIC REFRIGERATORS PARTS MANUAL 1927-50 This is an excellent photocopy of a manual for the late 1920s through 1950 General Electric Monitor Top Refrigerator, and those cabinet style models immediately preceding it up to 1950. Models named appear to be EVERY cabinet that GE ever produced from 1927-50. I found these at a swap meet. I was told they were from an "out of business" appliance parts house. I recently compared it to an original and it is a complete replica of the original text! Comb bound at the spine so it opens like a book to lay flat for shop use. This manual covers hundreds of cabinet models, Monitor Tops, double doors, single doors, and illustrations of most. Every refrigerator cabinet style that GE produced in this era. 8 1/2" X 11" format, approximately 216 pages of cabinet parts, drawings of the machines, with corresponding part numbers, specifications, also shows actual photographs and complete illustrated diagrams of the interior of the "C" Type control, "D" Type control, "E" Type control, "A" Type control, "CR1057" control . A complete cabinet-Unit reference chart, door gaskets chart with rubber profile drawings, illustrated hinge chart, Door Striker charts, Door Latch chart, ...and lots more ! A VERY valuable manual for those of you who own and/or are restoring these units. You can't go wrong using a copy of the FACTORY parts manual for your restoration! (Perfect companion to our reprint of the Vol. I and Vol. 2 GE Monitor Top Repair Manuals.) NO RETURNS.
