When Seth Meek exits the parking lot at Fort Meade, he doesn't realize that he'll never return to his dream job - creating revolutionary computer encryption for the National Security Agency. His is a life of comfort and delight - a loving wife, daughter, and another on the way. He has money, security, and promise. In the space of the next twenty-four hours, however, he is stripped of everything that he holds dear. Seth watches as his family is purposefully and hatefully murdered, becomes a Federal fugitive, and faces off against the waking nightmare of taking his own life. In shame, self-loathing, and hatred he falls back upon what he knows - computers. Now driven by his rage, and with nothing to lose, Seth embarks on a audacious quest not only to find and capture his family's killers, but also to bring them to justice. Seth, however, is not a killer. He is not a vigilante. He's just Seth... a glorified computer contractor for the NSA. Using his unique skill set, he reveals his plan to put the killers on trial... via the Internet. Social media is the perfect medium for the geometric progression that he has planned. The entire world will be the Grand Jury, forced to confront their own bloodlust, sense of justice, and morality as they decide upon a verdict. Experience more at:
