Reviews of previous editions:

'A publication of no equal that has become an essential reference during its 35 years of publication' ASLIB Book List

'All metallurgists will covet a copy of Smithells' Chemistry and Industry

'(It) provides an invaluable reference source for all workers, libraries and research laboratories in the field of engineering and metallurgy' BNF Abstract

Smithells is the only single volume that provides all the data and references needed by those practicing metallurgy. The seventh edition of this standard reference work for metallurgists includes important new chapters on powder metallurgy and superconductivity. All chapters have been thoroughly revised to bring them up to date with developments since the last edition in 1983. In all this is the most complete compendium of information for industrial and theoretical metallurgists, and it is now available in a more accessible format including current data to 1997.

Also available is Smithells Light Metals Handbook (ISBN 0750636254).

THE standard reference work for metallurgists

Contains all data for researchers and professional metallurgists

Fully updated to the latest revisions of international standards
