Reading Lips: A Memoir of Kisses Claudia Sternbach

Kisses, even the ones that don't happen, can be the trace of what's constant when life changes. In childhood, when what seems to define everything is competition—for style, for knowing, for experience—a kiss is the first first. When a girl's father moves out and chooses a new family, a kiss on the head from him may be the trace of constancy that she wants most.

Later, such things take on a different flavor. Sometimes the kiss she wants doesn't come. Sometimes the one she wouldn't have is forced upon her. From time to time, the one she has kissed before is lost to her.

Some kisses are final. When things are most hectic a kiss can be a celebration. And when circumstances grow threatening—to a woman, her family, her sister—a kiss becomes the reassertion of the most vital connections.

The rich story in these essays rings with good humor and with moving wistfulness. Throughout, Sternbach maintains a perfect balance between them as her story moves from the bittersweet desires of childhood on through loss and love.

Reading Lips is the tale of one woman who is just trying to get life right.
