*The biggest difference between successful businesses and unsuccessful businesses is **systems***

The most successful businesses in the world all have FIVE key elements in their businesses. These elements generate a steady stream of targeted, ready-to-buy leads, build relationships and the Know, Like, and Trust factor with those leads, and turn leads into customers.

Most small businesses either don't know about these five elements, or don't have the knowledge or resources to implement them.

In this book, you'll learn about how ANY business - whether you serve a product or a service - can scale to six-figures in revenue by implementing these five elements. You'll discover the biggest mistake that most businesses make when it comes to sales (and why that costs them thousands of dollars), and how major companies build brand awareness by seemingly "following" their prospects and popping up everywhere they go.

Author Brian Lofrumento built a six-figure marketing agency at the age of 24 by implementing these five elements, and reveals the secrets behind his **Ultimate Profit Model** framework within this book. Unlike most business books, this book jumps straight into the meat of the content, and leaves out all the fluff and confusing information that doesn't contribute to your bottom line.

Download the ebook to find out how to take your business to the next level. In addition, you'll get:

- Free, instant access to Brian's free training series on how to grow a six-figure business
- A detailed, step-by-step action plan of how to implement these five elements in your business (at the end of the training series)
- And a list of all the tools and resources to use to build out an entire system for your business
