## **A Concise Course in Algebraic Topology (Chicago Lectures in Mathematics Series) J. P. May**

Algebraic topology is a basic part of modern mathematics, and some knowledge of this area is indispensable for any advanced work relating to geometry, including topology itself, differential geometry, algebraic geometry, and Lie groups. This book provides a detailed treatment of algebraic topology both for teachers of the subject and for advanced graduate students in mathematics either specializing in this area or continuing on to other fields.

J. Peter May's approach reflects the enormous internal developments within algebraic topology over the past several decades, most of which are largely unknown to mathematicians in other fields. But he also retains the classical presentations of various topics where appropriate. Most chapters end with problems that further explore and refine the concepts presented. The final four chapters provide sketches of substantial areas of algebraic topology that are normally omitted from introductory texts, and the book concludes with a list of suggested readings for those interested in delving further into the field.

### **From reader reviews:**

#### **Alice Black:**

Reading can called imagination hangout, why? Because if you find yourself reading a book specifically book entitled A Concise Course in Algebraic Topology (Chicago Lectures in Mathematics Series) your head will drift away trough every dimension, wandering in most aspect that maybe mysterious for but surely can become your mind friends. Imaging every single word written in a guide then become one form conclusion and explanation which maybe you never get just before. The A Concise Course in Algebraic Topology (Chicago Lectures in Mathematics Series) giving you yet another experience more than blown away the mind but also giving you useful details for your better life in this particular era. So now let us demonstrate the relaxing pattern here is your body and mind will likely be pleased when you are finished examining it, like winning a sport. Do you want to try this extraordinary paying spare time activity?

#### **Dena Jacobs:**

Are you kind of stressful person, only have 10 or maybe 15 minute in your day time to upgrading your mind expertise or thinking skill also analytical thinking? Then you are having problem with the book compared to can satisfy your short space of time to read it because all of this time you only find reserve that need more time to be study. A Concise Course in Algebraic Topology (Chicago Lectures in Mathematics Series) can be your answer given it can be read by anyone who have those short extra time problems.

#### **Benjamin Deloatch:**

As we know that book is vital thing to add our know-how for everything. By a publication we can know everything you want. A book is a pair of written, printed, illustrated or blank sheet. Every year ended up being exactly added. This book A Concise Course in Algebraic Topology (Chicago Lectures in Mathematics Series) was filled regarding science. Spend your extra time to add your knowledge about your technology competence. Some people has various feel when they reading a new book. If you know how big benefit of a book, you can really feel enjoy to read a e-book. In the modern era like at this point, many ways to get book that you simply wanted.

#### **Deborah Walker:**

As a pupil exactly feel bored to be able to reading. If their teacher inquired them to go to the library or to make summary for some guide, they are complained. Just minor students that has reading's heart and soul or real their pastime. They just do what the teacher want, like asked to the library. They go to generally there but nothing reading seriously. Any students feel that studying is not important, boring and also can't see colorful photos on there. Yeah, it is to get complicated. Book is very important for you personally. As we know that on this age, many ways to get whatever we really wish for. Likewise word says, many ways to reach Chinese's country. Therefore this A Concise Course in Algebraic Topology (Chicago Lectures in Mathematics Series) can make you sense more interested to read.
